

### ALPHA FOAM BOOST

FOAM BOOSTING ADDITIVE FOR ALL ALKALINE CLEANERS

#### CARGO HOLD CLEANERS

#### DESCRIPTION

**ALPHA FOAM BOOST** is used to improve the resident time of chemicals on vertical surfaces, thus increasing the cleaning efficiency. Thanks to its action, the cleaning chemicals form a dense foam that sticks longer on the vertical surfaces and penetrate the contaminations. Hard to reach residues are more easily removed and the ship saves on changeover time and on the quantity of the chemicals used, making **ALPHA FOAM BOOST** a very economical choice.

#### APPLICATION

**ALPHA FOAM BOOST** is compatible with all alkaline water-based cleaning chemicals. Especially recommended when **HOLDCLEAN**, **POWER-KLEEN** or **ALPHA COKE REMOVER** are already onboard. Product is not required with **HOLDCLEAN XF**.

#### USE AND DOSING

The typical dosage is about 1lt of **ALPHA FOAM BOOST** per 210lt drum of cleaning chemical (50 ml per 10 litres). Mix thoroughly and apply with spray foam equipment onto soiled surfaces. Use the final solution according to the directions for use for the actual cleaning product. If more foam is required, add more **ALPHA FOAM BOOST** proportionally.

#### PRODUCT PROPERTIES

For possible incompatibilities, pay attention to the precautions of the cleaning chemical wherein **ALPHA FOAM BOOST** is added. It is recommended to test all cleaning chemicals on a small area of tank coating, before full scale application. General Instructions: Avoid spillage, splashing and mishandling. Precautionary measures for body protection are strongly recommended before and during use.

Appearance:	Liquid	pH (undiluted):	Neutral
Type:	Water based	Flash Point:	None

- ✓ Adds foaming action to the cleaning chemicals
- ✓ Improves the cleaning efficiency of the cleaning chemicals
- ✓ Compatible with all alkaline water-based cleaning chemicals
- ✓ Thanks to high foaming properties helps cleaning on vertical surfaces
- ✓ Safe for rubber and plastic surfaces
- ✓ Very cost effective
- ✓ Non-flammable
- ✓ Composition conforming to MARPOL ANNEX V

#### PROBLEMS SOLVED

- ✓ Resident time of the chemicals
- ✓ Penetration of the contamination with the cleaning solution

#### APPLICATION AREAS

- ✓ Cargo holds
- ✓ Decks
- ✓ All vertical surfaces
- ✓ General cleaning
