

### MAINTENANCE

## ENVIRO-FORCE

LOW-TOXICITY CLEANER FOR  
OIL, GREASE, FAT & LIGHT CARBON DEPOSITS

### DESCRIPTION

**ENVIRO-FORCE** is a powerful, fresh scented, heavy-duty degreaser, which is effective on fresh and dried oily soils on decks, bulkheads, and other surfaces. It contains non chlorinated solvents and is not corrosive.

### APPLICATION

**ENVIRO-FORCE** is designed especially for removing oil, grease, fat and light carbon deposits, without the use of harsh acids, petroleum or chlorinated solvents. It can be used safely on painted and unpainted metal surfaces and ferrous and non-ferrous metals including aluminum and its alloys.

### USE AND DOSING

Apply **ENVIRO-FORCE** undiluted, directly onto soiled surfaces by brushing, wiping or low-pressure spraying. Allow to soak in for 10-20 minutes, then hose off with fresh or salt water. Where pressure rinsing is not possible, use a sponge to wash off the surface. For parts cleaning, soak parts in neat **ENVIRO-FORCE**, until the soils are softened. Remove, rinse with water, and wipe with a clean cloth. For cleaning deck plates, tank tops, machinery, bilges and for general deck and engine room maintenance, spray full strength on contaminated surfaces and allow to soak. Hose off with fresh or salt water.

### PRODUCT PROPERTIES

Compatible with all normally used metals and their alloys. Rubber/synthetic rubber may swell. It is highly recommended to always test all cleaner solutions on a small area of the object to be cleaned, before full scale application.

General Instructions: Avoid spillage, splashing and mishandling. Precautionary measures for body protection are strongly recommended before and during use.

Appearance:	Liquid	pH (undiluted):	N/A
Type:	Organic based	Pour Point:	< - 15°C

- ✓ Microemulsion cleaner
- ✓ Removes oil, grease, fat and light carbon deposits
- ✓ Versatile
- ✓ Pleasant aroma
- ✓ Reduces cleaning time and costs
- ✓ Safe to use on most metal surfaces and paint surfaces

### PROBLEMS SOLVED

- ✓ Oil
- ✓ Grease
- ✓ Fat
- ✓ Light carbon deposits

### APPLICATION AREAS

- ✓ All structural surfaces
- ✓ Engine room
- ✓ Tanks
- ✓ Bilge
- ✓ Double bottom
- ✓ Parts and tools
