

## SPECIAL PRODUCTS

### SAFE 3000

HEAVY DUTY CLEANER, DISINFECTANT & DEODORANT FOR TRASH CANS, GARBAGE TRUCKS AND PUBLIC MARKETS STREETS

#### DESCRIPTION

**SAFE 3000** is a concentrated water-soluble cleaner / disinfectant, non-caustic, non-flammable with a pleasant odor. It is an aqueous mixture that comprises surfactants and a wide range of disinfectant carrier, it is user and environmentally friendly product, completely biodegradable and is not harmful to biological treatment.

#### APPLICATION & USE

**SAFE 3000** is the most effective product for the removal of all pollutants and for disinfecting bins, garbage trucks and streets after public markets. Also with its application complete deodorization from the unpleasant smells of garbage is achieved at the same time. **SAFE 3000** is approved by EOF.

This product is usually applied by spraying the bin or vehicle to be cleaned, with a solution of the product in water, at a ratio from 1:100 up to 1:1000. It should be noted that the dilution of the product depends on the severity of the contamination. For general cleaning it can be applied by brushing / scrubbing and then rinsing with water.
