

## SPECIAL PRODUCTS

### T-CARE

#### POWERFUL TOILET CLEANER

#### DESCRIPTION

**T-CARE** is a powerful concentrated cleaner that comprises a mixture of disinfectants and deodorizers suitable for the disinfection and deodorization of chemical toilets. This specialized product is non-flammable and non-toxic, is not harmful to the environment as it is completely biodegradable and does not contain formaldehyde, phenols, cresols or heavy metals. Does not affect plastics, metals, aluminum-magnesium alloys and steel.

#### APPLICATION & USE

Use **T-CARE** effectively in airplane, train, bus, caravan, ship and yacht toilets, and generally anywhere a chemical toilet is used. It is suitable for all portable and recirculating toilets as it disinfects and removes unpleasant odors.

For chemical toilets: For every 4 liters of sewage tank capacity, add 20ml of **T-CARE**. If the capacity of the tank is 10 liters then the recommended dosage is 50ml of product. Then add water to the toilet until the water level reaches about 3cm. The water should always cover the waste, otherwise add more water. After emptying the tank in a suitable location, rinse with plenty of water.

General use: Use **T-CARE** diluted with water at a ratio of 0.5-2.0% as a general use deodorant and disinfectant
